DISPLAY AND PRINT SOLUTIONS

We are the premier suppliers of large format printing in the UK. We utilise the latest technology that can produce prints up to five metres wide on a variety of substrates. We operate state-of-the-art printers which allow us to achieve high production output, up to 400 square metres an hour, and vibrant, dynamic graphics. We're also experts in sourcing bespoke products and creating custom made solutions, so however unique your project may be, please don't hesitate to get in touch. And remember – we print all products in full colour as standard, so any design is possible.

Whether you're new to us or have known us for many years, our team is always on hand to help however they can.

Number of working days to print and dispatch your order from artwork approval (production time may change dependent on the quantity of products ordered)

SOFT TOUCH

MEETING POD

Our Soft Touch meeting pod is a great addition to your next exhibition stand – it offers the opportunity to create a private area to host clients, while offering full colour print across the whole product, so you can have a consistent design across your whole stand.

- Assembled size – 3000mm (w) x 2320mm/1250mm (h) x 2700mm (d)
- 30mm aluminium tubing
- Easy push fit assembly
- Fabric sock with zip fastening
- Printed full colour on 260gsm super-stretch polyester
- Carry bag supplied
- 1 year warranty on hardware

MEETING POD

Code: **ST-MP300**

SOFT TOUCH

MIDI MEETING POD

A smaller version of our popular Soft Touch Meeting Pod, the Midi version is ideal for when floor space is at a premium. With a smaller overall footprint, you can still have a discreet meeting area without the frame expanding too far into your stand.

- Assembled size – 3000mm (w) x 2000mm/1200mm (h) x 1600mm (d)
- 30mm aluminium tubing
- Easy push fit assembly
- Fabric sock with zip fastening
- Printed full colour on 260gsm super-stretch polyester
- Carry bag supplied
- 1 year warranty on hardware

SOFT TOUCH

ACCESSORIES GUIDE

This diagram shows how you can use our range of Soft Touch accessories to create your own custom stand shapes

SOFT TOUCH LIGHTING BRACKET

(Pack of two). These brackets push easily onto the top of your Soft Touch fabric display to allow you to use our LED White Lights to illuminate your stand. (To be used with item code **LU-LEDLIGHT**)

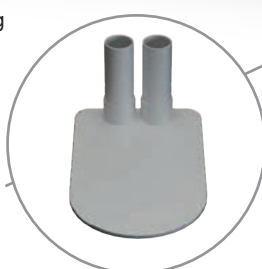

SOFT TOUCH STRAIGHT CONNECTOR

(Pack of two). Use these handy connectors to join two Soft Touch fabric stands together, creating a 180-degree continuous straight display stand. If considering these connectors, we strongly advise that you speak to our sales team before ordering, as additional feet will be required for the stand to display correctly and securely.

SOFT TOUCH STRAIGHT JOINING ½ FOOT

Use these joining feet if you are assembling your Soft Touch fabric display in a shell scheme or require the stand to be pushed back against a wall. These feet are used to join two stands together. If considering these connectors, we strongly advise that you speak to our sales team before ordering, as additional feet will be required for the stand to display correctly and securely.

SOFT TOUCH 3 WAY FOOT

These feet accessories allow you to join three Soft Touch fabric display stands together, creating a T-shape.

SOFT TOUCH MIDDLE ½ FOOT

Use this middle foot if you are assembling your fabric display in a shell scheme or require the stand to be pushed back against a wall. If considering these feet, we strongly advise that you speak to our sales team before ordering, as additional connectors will be required for the stand to display correctly and securely.

Only required for 4m, 5m and 6m stands.

SOFT TOUCH END ½ FOOT

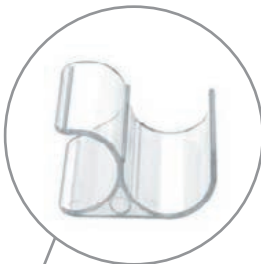

(Pack of two - left and right)

Use these end feet if you are assembling your fabric display in a shell scheme or require the stand to be pushed back against a wall. We supply both a left and a right foot. If considering these connectors, we strongly advise that you speak to our sales team before ordering, as additional feet will be required for the stand to display correctly and securely.

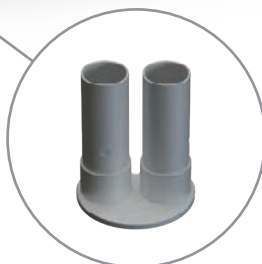

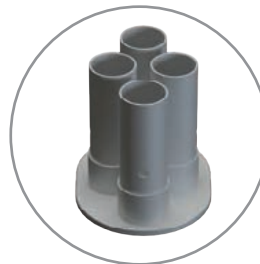

SOFT TOUCH 90° CONNECTOR

(Pack of two). Use these handy connectors to create a 90-degree (L-shape) angled Soft Touch fabric display stand. If considering these connectors, we strongly advise that you speak to our sales team before ordering, as additional feet will be required for the stand to display correctly and securely.

SOFT TOUCH 4 WAY FOOT

These feet accessories allow you to join four Soft Touch fabric display stands together, creating a cross shape.

SOFT TOUCH SLIM CORNER FOOT

Use this slim corner with our 90-degree connector (**ST-90D-CONNECTOR**) to create a 90-degree Soft Touch fabric display.

SOFT TOUCH

ACCESSORIES

Our range of Soft Touch fabric displays can be used in a wide variety of settings, and we have a fantastic range of accessories to make the most of your exhibition display. If you are planning to create a custom set-up using our range of accessories, we strongly advise that you speak to our sales team before ordering. Additional connectors or feet may be required for the stand to display correctly and securely, and our team will be happy to help.

SOFT TOUCH LIGHTING BRACKET

(Pack of two). These brackets push easily onto the top of your Soft Touch fabric display to allow you to use our LED White Lights to illuminate your stand. (To be used with item code LU-LEDLIGHT)

LIGHTING BRACKET

Code: **ST-LIGHT-BRACKET**

LED WHITE LIGHT FOR LINK-UP

(Pack of two). Illuminate your Soft Touch fabric display stand with our LED White lights. Each 15W light is supplied with a 1.2m power lead.

LED LINK-UP LIGHT

Code: **LU-LEDLIGHT**

SOFT TOUCH 90° CONNECTOR

(Pack of two). Use these handy connectors to create a 90-degree (L-shape) angled Soft Touch fabric display stand. If considering these connectors, we strongly advise that you speak to our sales team before ordering, as additional feet will be required for the stand to display correctly and securely.

90° CONNECTOR

Code: **ST-90D-CONNECTOR**

SOFT TOUCH STRAIGHT CONNECTOR

(Pack of two). Use these handy connectors to join two Soft Touch fabric stands together, creating a 180-degree continuous straight display stand. If considering these connectors, we strongly advise that you speak to our sales team before ordering, as additional feet will be required for the stand to display correctly and securely.

STRAIGHT CONNECTOR

Code: **ST-180D-CONNECTOR**

SOFT TOUCH STRAIGHT JOINING ½ FOOT

Use these joining feet if you are assembling your Soft Touch fabric display in a shell scheme or require the stand to be pushed back against a wall. These feet are used to join two stands together.

STRAIGHT JOINING 1/2 FOOT

Code: ST-UNIV-HALF-FOOT

SOFT TOUCH END ½ FOOT

(Pack of two - left and right) Use these end feet if you are assembling your fabric display in a shell scheme or require the stand to be pushed back against a wall. We supply both a left and a right foot.

END 1/2 FOOT

Code: ST-HALF-END-FOOT

SOFT TOUCH MIDDLE ½ FOOT

Use this middle foot if you are assembling your fabric display in a shell scheme or require the stand to be pushed back against a wall. **Only required for 4m, 5m and 6m stands.**

MIDDLE 1/2 FOOT

Code: ST-HALF-MID-FOOT

SOFT TOUCH SLIM CORNER FOOT

Use this slim corner with our 90-degree connector (**ST-90D-CONNECTOR**) to create a 90-degree Soft Touch fabric display.

SLIM CORNER FOOT

Code: ST-CORNER-FOOT

SOFT TOUCH 3-WAY FOOT

These feet accessories allow you to join three Soft Touch fabric display stands together, creating a T shape.

3-WAY FOOT

Code: ST-3WAY-FOOT

SOFT TOUCH 4-WAY FOOT

These feet accessories allow you to join four Soft Touch fabric display stands together, creating a cross shape.

4-WAY FOOT

Code: ST-4WAY-FOOT

SOFT TOUCH

PREMIUM EVENT DISPLAYS

v LED Lightboxes are a visually impactful exhibition display solution with minimum assembly.

With dynamic full colour graphics printed on premium back-lit fabric, these LED lightboxes are available in a variety of widths and heights. Glopix LED Lightbox displays are easily powered with a standard transformer and 3-pin plug, meaning they can be used in almost any indoor location. Each lightbox display is supplied with its own padded carry case, which is big enough to safely transport everything, including the printed graphics.

No tools required to assemble, making this a simple self-build product to build; simply connect the frame together and attach the graphics. Shine a light on your brand and grab the attention of anyone passing by.

5 DAYS

**BEST
SELLER**

LED MODULAR LIGHTBOX DISPLAYS

At trade shows and exhibitions, LED lightboxes can transform a standard booth into a vibrant, attention-grabbing showcase for any business. A freestanding arrangement of our sleek lightboxes creates a dynamic backdrop, seamlessly integrating bold branding, slogans, and key messages. The vivid backlighting and full colour graphics ensure that your stand is guaranteed to catch the eye in a crowded exhibition hall, drawing visitors in and leaving a lasting impression.

Modular LED lightboxes can be tailored to any space or brand identity, delivering both visual impact and practical flexibility. Whether you're launching a new product or reinforcing brand recognition, our lightboxes provide the perfect canvas to ensure that your message stands out.

GLOPIX LED BRIDGE KIT

Take your Glopix LED lightbox display to the next level by adding a striking bridge kit. Supplied with all required connectors and stabilising feet, this kit easily attaches to your Glopix LED lightbox display, creating a walkthrough that not only provides extra print area for your brand, but is also aesthetically pleasing. Adding additional kits can create visually impressive structures too as, depending on the size of your exhibition display, multiple bridges can be added

- x1 1000mm x 2000mm Glopix LED bridge lightbox
- Paired with either a 2250mm (h) or 2500mm (h) supporting lightbox x1
- x3 T-bracket Connectors
- x1 90° Corner Connector
- Option to upgrade to 16" Side Locked Feet (GLSFC – see page 46)

WHITE PVC FRAME

GLOPIX LED LIGHTBOX ACCESSORIES

Although all Glopix LED lightboxes are supplied with padded carry bags, we can supply hard wheeled cases. These tough, durable cases provide extra protection should you need to transport the lightbox overseas, for example. Our standard hard case is suitable for Glopix LED lightboxes measuring 800mm, 850mm or 1000mm wide. The large case is suitable for 1500mm, 2000mm and 3000mm Glopix LED lightboxes. Please note that the 3m Glopix Curve LED Lightbox **GLP204-C** cannot be used with these wheeled cases.

GLOPIX LED LIGHTBOX

ACCESSORIES

We supply a variety of connectors and accessories that allow you to configure your Glopix LED lightbox to create a distinctive and unmissable display. If you have any queries or questions, or are looking for advice, please do not hesitate to contact our sales team.

STRAIGHT CONNECTOR

Use this connector to attach Glopix LED lightboxes side-by-side at 180°. This can be done by lining up the units together and sliding the connector in between them. It's recommended to use Side-by-Side Magnetic Connectors for extra stability. (see page 46)

180° CONNECTOR WHITE

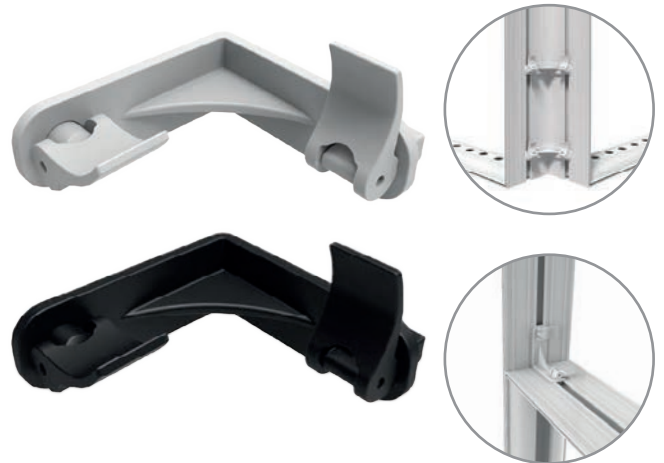

Code: GLSCO

180° CONNECTOR BLACK

Code: GLSCO-B

90° CORNER CONNECTOR

This connector allows you to link two Glopix LED lightboxes together at a 90° angle, perfect for creating exhibition stands and displays. You can also use this connector to stack and secure Glopix LED lightboxes into place and create a tunnel. This connector easily locks into place via the channels on the sides of Glopix lightbox.

90° CONNECTOR WHITE

Code: GL90C

90° CONNECTOR BLACK

Code: GL90C-B

45° CORNER CONNECTOR

This connector allows you to link two Glopix LED lightboxes together at a 45° angle, perfect for creating exhibition stands and displays. This connector easily locks into place via the channels on the sides of Glopix lightbox.

45° CONNECTOR WHITE

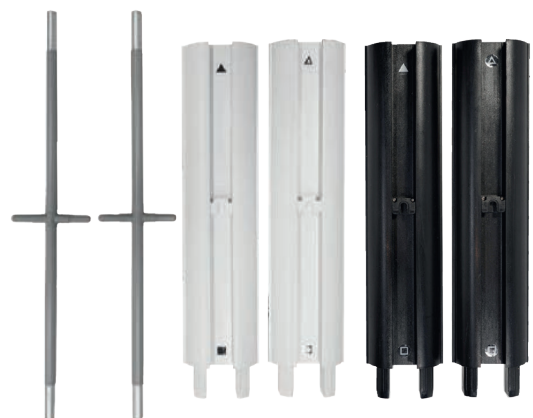

Code: GL45C

45° CONNECTOR BLACK

Code: GL45C-B

GLOPIX EXTENSION KITS

Increase the height of your Glopix LED lightbox from 2000mm to 2500mm with our extension kits. Note – lightboxes measuring 850mm and 1000mm wide will receive the extension sections only. Lightboxes measuring 2000mm and 3000mm wide will receive the cross supports too.

850MM/1000MM WHITE

Code: H-GLPEXT

850MM/1000MM BLACK

Code: Code: H-GLPEXT-B

3000MM WHITE

Code: H-GLPEXT3

3000MM BLACK

Code: H-GLPEXT2-B

2000MM WHITE

Code: H-GLPEXT2

2000MM BLACK

Code: H-GLPEXT3-B

SIDE-BY-SIDE MAGNETIC CONNECTORS (PAIR)

The magnetic connectors easily slide into the channels on the Glopix LED lightboxes and help to keep modular units linked. It's recommended to use the 180° Connector for extra stability.

SIDE CONNECTOR WHITE

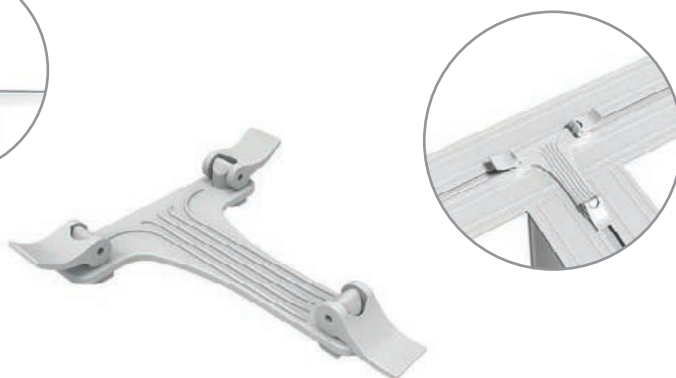

Code: GLSSM

SIDE CONNECTOR BLACK

Code: GLSSM-B

T-BRACKET CONNECTOR

The T-Bracket connector easily slides into place to connect two Glopix lightboxes into a T shape.

T-BRACKET CONNECTOR

Code: GLTBC

16" SIDE LOCKED FEET

These feet can be used on all stands when additional support is needed, and these feet are required when using the TV bracket.

16" FOOT

Code: GLSFC

20" SIDE LOCKED FEET

These large feet can be used on all stands when additional support is needed, and these feet are required when using the TV bracket and shelf. Please note that if using the lightbox in a high footfall area, we strongly recommend using the 16" feet (GLSFC), as they are smaller and reduce the chances of the feet being a trip hazard.

20" FOOT WHITE

Code: GLSSF

20" FOOT BLACK

Code: GLSSF-B

STEEL HALF SIDE FOOT

These half feet, measuring 12" in length, can be used on all stands when there is a requirement for the lightbox to be displayed flush against a wall or within a shell scheme.

GLOPIX[®]
LED MODULAR LIGHTBOX DISPLAYS

At any trade show or event, standing out is essential. By adding a flatscreen TV to your Glopix LED lightbox display with our TV bracket kit, you can create a dynamic, eye-catching display that draws attention and engages visitors.

A TV allows you to showcase high-definition videos, product demonstrations, or promotional content, making your stand more interactive and memorable. Installation is simple and we offer kits for 1m, 2m and 3m wide Glopix LED lightboxes. We recommend a maximum TV weight of 20kg and a size of no larger than 50 inches.

Our Rayo RGB Lightboxes are a versatile and innovative display solution designed to enhance brand visibility at retail spaces, exhibitions, and promotional events. The integrated RDG frame is a standout feature, offering stylish internal LED lights with no complicated wiring and ensuring a clean and professional appearance. This makes setup hassle-free and the final product visually appealing.

Tool-free assembly is another key advantage. All components simply push together, guided by matching symbols, allowing for quick and effortless setup without the need for tools. Whether exhibiting at an event or trade show, or creating an eye-catching retail display, Rayo RGB Lightboxes are the ideal solution.

Carry case included.

Recharge base

1000MM W X 2000MM H X 85MM D

Code: RRC1000

OUR IMPRESSIVE AND PORTABLE RAYO RECHARGE LED LIGHTBOX DISPLAY IS THE IDEAL ADDITION TO YOUR NEXT EXHIBITION STAND.

Measuring in at 1000mm (w) x 2000mm (h) x 85mm (d) and weighing only 27.5kg, the Rayo Recharge is easy to transport in the supplied wheeled carry bag. This lightbox features tool free assembly and 360° wheels on the base to easily manoeuvre the lightbox into position. The Rayo Recharge is wireless and rechargeable and offers more versatility than a standalone option. With a 14-hour battery life after a full 7-hour charge, you no longer need to worry about tripping over cables or powering the unit.

With our LED lightbox range, you also have the option to change the custom printed graphics as needed, allowing you to keep your design or message fresh and up to date. The Rayo Recharge is printed double sided as standard on backlit fabric.

STRETCH TABLECLOTH

A stretch tablecloth transforms any table with a smooth, crease-free finish. Stretch tablecloths are unaffected by the wind if used outdoors and are easy to care for.

The fabric is a very durable polyester elastane, with reinforced pockets for the table feet.

Please note that our stretch tablecloth is designed to fit a classic trestle table only (see image). The tablecloth has feet machined into the finished product and is not suitable for any other style of table. Please visit page 57 to view our trestle tables and accessories.

- 260gsm super-stretch polyester
- Fire rated fabric
- Full colour high resolution print
- Available in different sizes and with option of open back or zip

Round table

CAFÉ BARRIERS

Café barriers are a common sight on the high street and in retail environments.

Most businesses use them to create a dining or drinking area, but they do have multiple uses and they're great to frame a hotel entrance or for theatres and cinemas to create attractive queuing systems

SPACE ONLY

Our LinkUp modular display frames are perfectly suited for space-only exhibitions, where exhibitors have complete freedom to design and build their stand from scratch. The lightweight frames and tool-free assembly make the stand build simple and stress-free, especially when set-up time is short.

The simplicity of LinkUp modular display frames reduces costs for large, open-plan spaces, as you won't require expensive installation teams. LinkUp's modular nature allows for endless configurations, from compact displays or expansive stands, so you can create a custom layout that perfectly fits your allocated space and requirements.

SHELL SCHEME

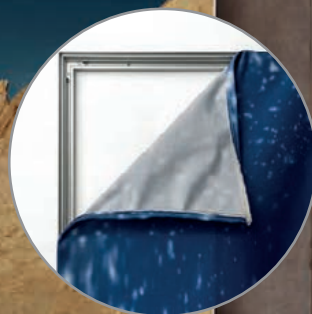

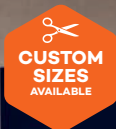

Our LinkUp modular display frames are an ideal solution when exhibiting within a shell scheme at trade shows. LinkUp is lightweight with tool-free assembly, making stand set-up quick and easy.

LinkUp's modular design means you can start with a simple configuration, such as a branded backwall, and easily expand or adapt the layout as required. This flexibility is particularly valuable in shell schemes, where space is often limited and standardised, as it enables you to create eye-catching, professional displays that stand out without requiring expensive custom builds for each event.

Check out our

WALL MOUNTED TFS DISPLAY

WHAT ARE WALL MOUNTED TFS DISPLAYS?

Our tension fabric system, more commonly known simply as TFS, is available in a wall mountable option, and is becoming a hugely popular exhibition and display solution. Supplied with a lightweight but durable aluminum frame that easily fixes onto a wall, the graphic is printed in vibrant full colour and finished with a rigid silicone edging that simply pushes into the extrusion.

We have created a list of our most popular sizes, but a wall mountable TFS is available in custom sizes.

The huge benefit of a TFS is that once you're ready to refresh your message or brand, you can simply order new graphics.

PEGASUS FABRIC

TENSION BANNER

The Pegasus fabric tension banner is one of the largest tension banners within the range making it ideal for exhibition environments and backdrops for presentations and branding.

It is both height and width adjustable, making it flexible enough to fit a variety of venues. As it is extremely lightweight and breaks down to fit a small carry bag, it is very practical for portable display applications.

- Telescopic poles allow for adjustable heights and widths
- Ability to go to 2.4 metres wide. It can provide up to a 5.6 sqm print area
- Black powder coated aluminium finish
- Visual area H: 1120 – 2400 mm x W: 1330 – 2400mm with pole pockets for a seamless graphic
- Assembled size: H: 1000 – 2460 x W: 1430 – 2400 x D: 440mm
- Printed on 210gsm 100% recycled polyester
- Comes complete with carry bag
- 1 year warranty on hardware

CUSTOM PRINTED

POP UP DISPLAY & EXHIBITION KITS

UTILISE OUR POP-UP DISPLAY AND EXHIBITION KITS FOR A STUNNING SEAMLESS DISPLAY THAT CAN BE COMPLETED WITHIN MINUTES.

Simply pop out the aluminium frame and it will lock into place. It is just as easy to attach the graphic, so the assembly of these display kits are a breeze.

You can be as creative as you like as we offer full colour print as standard. Whether it's your brand message or logo it is sure to look great.

VISION STARTER KIT

This is probably the most well-known exhibition stand; a high-quality display which offers maximum impact. With a frameless appearance and high definition printing on to seamless panels, these stands really do make a big impression.

Pop up stands are made up of an aluminium scissor-lattice frame and individual printed graphic panels. These panels are finished with magnetic strips, so once you have opened the frame out and locked it into place, you simply place the panels onto it in order.

- x1 Pop-up stand frame
- x1 Set of high-quality printed graphics
- 5 year warranty on hardware

ADVANCED UV PRINTING

FOR ANY SURFACE, ANY SCALE

With our SwissQprint Kudu UV flatbed and roll-to-roll technology, we can print directly onto almost any surface, including rigid, flexible, textured or fabric. This technology delivers outstanding colour, durability, and creative freedom.

WE SPECIALISE IN ADVANCED UV PRINT TECHNIQUES, INCLUDING:

- Multi-layer printing for depth, texture, and premium effects
- White ink & spot layers for backlit, clear, and coloured substrates
- High-build and textured effects, including oil-painting style finishes
- Braille & tactile printing for accessibility and compliance
- Direct-to-substrate printing on rigid and flexible materials
- Fabric and textile printing for POS, displays and soft signage

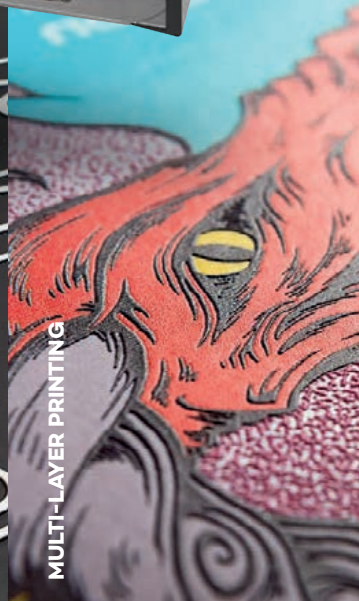

PRINT ON VIRTUALLY ANY MATERIAL:

- Acrylic & Perspex
- Foamex & PVC
- Polypropylene
- Correx
- Aluminium & composite panels
- Wood & MDF
- Cardboard & display board
- Glass & clear media
- Fabric & textile materials
- Specialist coated and uncoated substrates

BRaille PRINTING

MULTI-LAYER PRINTING

GLASS PRINTING

OIL-PAINTING STYLE FINISHES

CUTTING, FINISHING & PRODUCTION AT SCALE

Printing is only part of the process - our expert in-house cutting and finishing departments ensure that the final product exceeds expectations.

With three dedicated cutting machines and large finishing department, we can handle complex shapes, volume production and precision work across rigid and flexible materials.

OUR CAPABILITIES INCLUDE:

- Digital cutting & routing for all substrate types
- Contour cutting for shaped POS and display items
- Creasing, folding & fabrication
- Laminating for protection, durability, and specialist finishes
- Assembly of 3D and structural POS

This allows us to deliver complete, production-ready solutions — not just printed sheets.

HIGH-VOLUME SCREEN PRINTING SPOT COLOUR WORK

For projects requiring ultra-consistent spot colours, high opacity, or very large production runs, our screen-printing facilities provide the perfect solution.

Screen printing is ideal for:

- High-volume flat surface production
- Strong, consistent spot colours
- Specialist inks and finishes (including gold, silver etc)
- Durable outdoor and industrial applications

Common materials include:

- Acrylic & Perspex
- Foamex & PVC
- Polypropylene
- Dibond
- Correx
- Aluminium & composite panels
- Wood & MDF
- Cardboard & display board
- Glass & clear media
- Metals
- Specialist coated and uncoated substrates

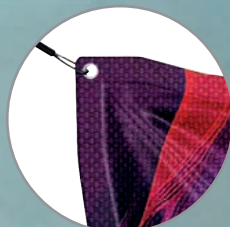

Check out our

PVC & FABRIC BANNERS

PVC and fabric banners are a classic advertising solution – we print full colour, so any design is possible. All PVC and fabric banners are hemmed all around and finished with eyelets, allowing you to easily fix or hang the banner as required. We have compiled the most popular sizes below, but custom sizes are available, so please don't hesitate to contact our sales team with your enquiries.

SUPPLIED WITH EYELETS

PVC BANNERS

CUSTOM PRINTED

OUTDOOR RANGE

OUTDOOR DISPLAY SOLUTIONS NEED TO DO MORE THAN JUST STAND OUT—THEY NEED TO STAND UP TO THE ELEMENTS, TOO.

That's why our range of outdoor exhibition and display products is crafted with durability, versatility, and visual impact in mind. From eye-catching gazebos and flags to classic deckchairs and parasols, every solution is designed to elevate your brand's presence, whatever the weather.

FIBREGLASS FLAG RANGE

Printed flags are a great way of promoting a special event or business to the public. They ensure that your message stands out and can be seen above the crowd. They can also be used as markers or information points at outdoor events, such as a car park or first-aid station.

- Available in four assembled heights* - 2.4m, 3m, 4m and 5.2m
- Choose from eight base options (see page 61 for full range)
- Graphic printed in full colour on 115gsm knitted polyester
- Available in both single-sided and double-sided print
- Includes drawstring carry bag for pole kit (larger carry bag available – see page 61 for more information)
- Suitable for both indoor and outdoor use
- 1 year warranty on hardware

FOLLOW THESE EASY STEPS

- Choose a pole size
- Choose single or double sided print
- Choose a flag base (see page 61)
- Add a carry bag

FLAG BASES & ACCESSORIES

Choose your base...

RHINO LARGE BASE

Made from recycled plastic, the large base can be filled with 33L of water or sand. Size: 500mm (L) x 500mm (W) x 400mm (H)

Code: **RBLWA33**

RHINO SMALL BASE

Made from recycled plastic, the small base can be filled with 25L of water or sand. Size: 430mm (L) x 430mm (W) x 330mm (H)

Code: **RBSWA25**

FLAG WEIGHT

These handy products help to keep custom flags and banners weighed down. They are made from thick black webbing, are filled with iron beads and are finished with a plastic clip. Size: 100mm x 50mm. Approx weight: 160g

Code: **FLAG-WEIGHT**

RHINO CARRY BAG

Our carry bag is ideal for keeping your flagpole kit and flag safe, secure and clean.

Only suitable for small, medium, and large flags in curve, feather, bold and teardrop shape

Size: 1300mm x 300mm
Colour: Black

Code: **RCBAG**

RHINO LARGE CARRY BAG

Our carry bag is ideal for keeping your flagpole kit and flag safe, secure and clean.

Suitable for extra-large flags in curve, feather, bold and teardrop shape, and all rectangle sizes

Size: 1500mm x 300mm
Colour: Black

Code: **RCBAG1500**

UNIVERSAL BAG 1

Our range of universal carry bags can be used with a wide variety of products. They are lightweight and durable and are produced from 100% recycled material. Each bag is finished with carry handles and a zip fastener. Size: 400mm x 300mm x 80mm

Code: **GRAPHIC-BAG-S**

UNIVERSAL BAG 2

Our range of universal carry bags can be used with a wide variety of products. They are lightweight and durable and are produced from 100% recycled material. Each bag is finished with carry handles and a zip fastener. Size: 600mm x 400mm x 80mm

Code: **GRAPHIC-BAG-M**

UNIVERSAL BAG 3

Our range of universal carry bags can be used with a wide variety of products. They are lightweight and durable and are produced from 100% recycled material. Each bag is finished with carry handles and a zip fastener. Size: 800mm x 500mm x 120mm

Code: **GRAPHIC-BAG-L**

FLAG BASES & ACCESSORIES

Choose your base...

SCREW SPIKE BASE

Made from strong PVC plastic, the spike screws down into soft ground and the flagpole pushes into the top. Comes with collapsible handles for easy installation and removal. Each screw spike base weighs approximately 0.4kg. Size: 100mm (L) x 100mm (W) x 420mm/190mm (H)

Code: **RBSCSPK**

GROUND SPIKE BASE

Made from galvanised stainless steel, the spike pushes down into soft ground and the flagpole pushes onto the top. Each ground spike base weighs approximately 1kg. Size: 90mm (L) x 90mm (W) x 600mm (H)

Code: **RBGRSPK**

PREMIUM SPIKE BASE

Made from galvanised stainless steel, the spike pushes down into soft ground and the flagpole pushes onto the top. With a rotating spindle. Each ground spike base weighs approximately 1kg. Size: 90mm (L) x 90mm (W) x 600mm (H)

Code: **RBGRSPK-P**

CROSS BASE

Made from durable steel, the cross base is supplied with a set of ground pegs. Each cross-base weighs approximately 3.65kg. Size: 610mm (L) x 610mm (W) x 200mm (H). Shown with water ring (12L)

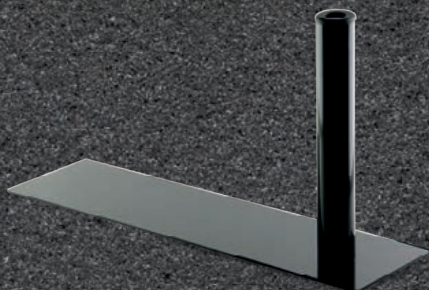

Code: **RBCRSBA**

WEIGHTING RING

Fillable water ring that adds an additional 2kg of weight.

Code: **WWRING**

CAR WHEEL BASE

Made from durable steel, this base fits under the wheel of a car which anchors the base to the ground. Perfect for car showrooms, fore-courts or outdoor events. Each car wheel base weighs approximately 3kg. Size: 600mm (L) x 160mm (W) x 300mm (H)

Code: **RBWHEBA**

V-SHAPED CAR BASE

Made from powder coated galvanised steel, this V-shape car base is designed to take on the weight of most cars and is suitable for all flag sizes. Each V-shaped car base weighs approximately 2kg. Size: 565mm (L) x 410mm (W) x 120mm (H)

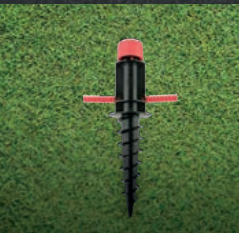

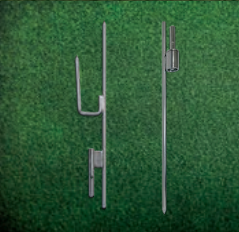

Code: **RBVCAR**

METAL STEEL PLATE BASE

Made from durable steel, our flat steel base plate sits securely on an even floor and the flagpole kits slips onto the spindle. Each metal steel plate base weighs approximately 10kg. Rotary fitting can be provided upon request. Size: 400mm (L) x 400mm (W) x 230mm (H)

Code: **RBFLT400**

BACKPACK FLAGS

Backpack flags are a great option for charity events, tour groups and fundraising days. The flags have a large print area and are available in a variety of shapes. We can also provide them in both single and double-sided print. These products are supplied with the backpack hardware with very simple assembly required.

Backpack flags are printed on lightweight 115gsm knitted polyester, except for the X Banner which is printed on 440gsm PVC banner material and is only available in single sided print.

- Available in four styles - teardrop, rectangle, feather or x-banner
- All styles are available in either single-sided or double-sided print (except x-banner)
- Flags are printed on 115gsm knitted polyester
- Supplied with backpack hardware and carry bag
- Suitable for both indoor and outdoor use
- X-Banner flag printed on 440gsm PVC
- 1 year warranty on hardware

CUSTOM PRINTED

GAZEBOS

OUR RHINO GAZEBOS ARE ONE OF THE MOST POPULAR PRODUCTS THAT WE OFFER, AS THEY CAN BE USED FOR BOTH CORPORATE AND PERSONAL EVENTS.

A printed gazebo is a great eye-catcher, and not only acts as a hosting venue but provides shelter from the sunny (or rainy) weather. Gazebos are supplied with a 40mm hexagonal aluminium frame, but you have the option to upgrade the hardware if required. We offer full colour gazebo walls printed with either single or double-sided print.

Doors and windows can be added if required, and please speak to our sales team about this option.

THE STANDARD KIT

- x1 40mm hexagonal aluminium frame (height adjustable)
- x1 Full colour single sided printed canopy (600D polyester)
- Wheeled carry bag for gazebo frame
- Pack of ground pegs and guide ropes
- Waterproof and flame retardant
- 12 month gazebo frame warranty

TEAM FLAGS

Team flags are a staple of sporting events across the country – whether they're used to welcome the team onto the pitch, or for fans to show their support in the crowd, team flags help to create a colourful and dynamic atmosphere. With a range of sizes available and full colour print as standard on 115gsm knitted polyester, your club colours, crest or message can be on full display on match day.

Our team flags are printed on B1 fire rated knitted polyester.

CUSTOM PRINTED FLAGS

Our full flag range is available with full colour print, so any design is possible. Whether it's a simple flag to hold for a team photo or to take with you on a charity walk, custom flags are a simple and cost-effective solution.

We have put together a list of our most popular sizes, but we're able to produce custom size flags, so please don't hesitate to contact us with your requirements. All flags are printed on 115gsm knitted polyester and are available in either single or double-sided print.

Single-sided flags have full colour print on one side with mirror image show through. Double-sided flags have full colour to both sides with interlining stitched between the material to prevent show through.

ROPE & TOGGLE FLAGS

Rope & toggle is the traditional way to secure a flag to a flagpole – this finish allows the flag to be easily raised and lowered as required. Please see our handy graphic below to show the process. All flags are printed on 115gsm knitted polyester and are available in either single or double-sided print.

Single sided flags have full colour print on one side with mirror image show through. Double sided flags have full colour to both sides with interlining stitched between the material to prevent show through.

Supplied with 5m rope.

CROWD BARRIER GRAPHICS

Crowd barrier jackets are a popular option for outdoor events – you often see these products at music festivals, parades and sporting events. These covers are designed to fit two standard sizes of crowd barrier and you can choose from two different material options and finishes. With full colour print as standard across the whole material, you can be sure that your message or brand will be seen by every passerby.

CAFÉ BARRIERS

WHAT ARE CAFÉ BARRIERS?

Café barriers are a common sight on the high street and in retail environments. Most businesses use them to create a dining or drinking area, but they do have multiple uses. They're great to frame a hotel entrance or for theatres and cinemas to create attractive queuing systems. The graphics we produce are full colour and you can use café barriers both indoor and outdoors.

HOW DO THEY WORK?

Café barriers are made up of printed graphics, support rails, poles and bases. While they can seem complicated to put together, they are actually straight forward:

- Choose which rail width option you need from the three available
- A Café Barrier set includes a printed graphic, two support rails, two poles and two bases
- You then add on an Extension Kit, which attaches to the first café barrier
- An Extension Kit include a printed graphic, two support rails, one pole and one base
- Keep adding as many Extension Kits as you need, creating a run of connected café barriers
- By purchasing additional poles and bases, you can add gaps into the run of café barriers, creating walkthroughs

Why choose café barriers?

- Great for creating attractive public areas
- Can be used both indoor and outdoor
- Quick and easy to assemble
- You can add on extra banners as you need to

GRAPHIC SIZE

1000mm: 850mm (w) x 825mm (h)
1500mm: 1360mm (w) x 825mm (h)
2000mm: 1850mm (w) x 825mm (h)

PAVEMENT SIGNS

WHAT ARE PAVEMENT SIGNS?

Pavement signs are the perfect advertising tool to be used on the high street and in high footfall locations. They are a simple yet effective way to promote your business, brand, or service.

We have a range of pavement signs to offer in a variety of sizes. They also have a quick and easy assembly with no tools required.

ECOFLEX LITE

Our Ecoflex Lite offers a simple robust solution for outdoor advertising. It may be the smallest from the range but be assured that it is just as effective.

- Panel size 410mm (w) x 795mm (h)
- 0.9mm aluminium panel
- Full colour print on vinyl
- Unique patented wedge for assembly and disassembly in seconds
- Recycled PVC base provides low centre of gravity and high stability
- Wind tested up to 60mph
- 1-year warranty on hardware

WITH GRAPHICS

Code: **EFL-01G**

ECOFLEX EXTRA

Our largest size in the range is designed for long range visibility and to grab attention. The perfect outdoor solution for promoting your message and increasing noticeability.

- Panel size 540mm (w) x 952mm (h)
- 1.2mm aluminium panel
- Full colour print on vinyl
- Unique patented wedge for assembly and disassembly in seconds
- Recycled PVC base provides low centre of gravity and high stability
- Wind tested up to 60mph
- 1-year warranty on hardware

WITH GRAPHICS

Code: **EFEX-01G**

ECOFLEX

2

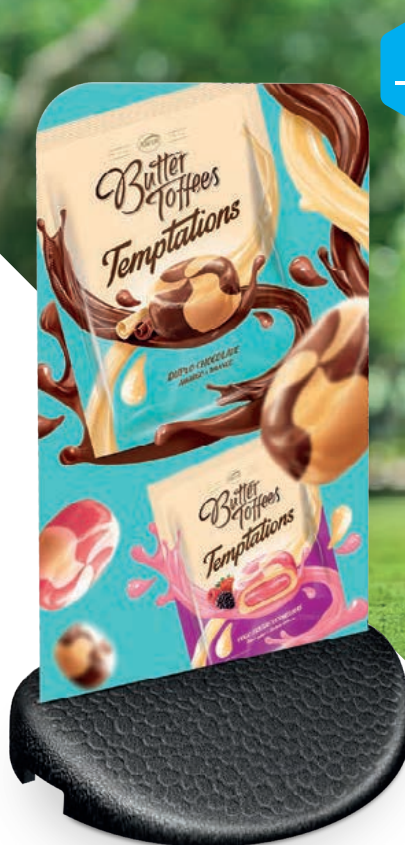

Great for high footfall areas, use the Ecoflex 2 to promote your business or campaign. This product offers a double-sided full colour print as standard, so the design possibilities are endless.

- Panel size 460mm (w) x 850mm (h)
- 1.2mm aluminium panel
- Full colour print on vinyl
- Unique patented wedge for assembly and disassembly in seconds
- Recycled PVC base provides low centre of gravity and high stability
- Wind tested up to 60mph
- 1-year warranty on hardware

WITH GRAPHICS

Code: **EFS-01G**

ECO SWINGER

Use the Eco Swinger for a simple yet effective advertising tool. Ideal for areas with high footfall, this pavement sign is sure to get noticed and increase your brand awareness.

- Display area of 430mm (w) x 625mm (h)
- 1.2mm aluminium panel
- Full colour double sided print
- 32mm round steel tube with anti-shock 'D-flex' panel hangers
- Black or white frame available
- Solid black recycled PVC base for stability
- Tool free assembly
- 1-year warranty on hardware

WITH GRAPHICS

SMALL RUN LEAFLETS

WEDDING STATIONERY

DIGITAL PRINTING

When utilising digital printing, there is no need for a printing plate, unlike with litho printing. Digital files such as PDFs or desktop publishing files can be printed directly on to paper, photo paper, card stock and other materials. This process is great for small run jobs as the setup costs are lower, so you'll only print the amount you need, when you need it.

NCR PADS

LITHO PRINTING

Litho printing, or offset printing as it's also known, is a popular technique as it can accommodate heavier weights of paper and is often more cost effective when printing in larger numbers. This technique is great for high quality brochures, catalogues, handbooks, prospectuses, magazines, anything which needs sharp, vibrant printing in high numbers. Large quantities can be printed cost effectively, so the more you print, the cheaper the price per piece.

MUGS

BAGS

PENS

USB STICKS

POWER BANKS

LANYARDS

NOTEBOOKS

DRINK TUMBLERS

MAILING BOXES

PROMOTIONAL GIFTS

Branded promotional merchandise, such as pens, mugs and bags, are powerful advertising tools. They can be printed with a logo, marketing message or contact information and are a proven way of not only introducing new customers to your company but also maintaining a great relationship with your current clients. We can help with a huge range of promotional goods, so please contact us today for more information.

Our range of printed rigid media printing will ensure you meet your diverse client needs with confidence.

TABLECLOTH

PVC-FREE POLYESTER MESH

ENVIROVISION

SWITCH MATERIALS TO HELP SAVE THE ENVIRONMENT

RECYCLED FABRIC

- This range of display materials are made from 100% recycled yarn, removed from the world's oceans
- All the materials are certified by the Global Recycle Standard
- Each tonne of waste that is used reduces CO2 emissions and saves 3.8 barrels of oil
- These materials are produced using 100% clean natural gas, reducing the emission of sulphur dioxide (SO2) to almost zero
- The low nitrogen combustion technique utilised during manufacture reduces nitrogen emissions by almost 60%

PVC-FREE ROLLER BANNER MATERIAL

- A revolutionary, 100% PVC-free material that is fully recyclable
- A greener, safer alternative without sacrificing quality or durability
- This material does not contain heavy metals or plasticisers, which are harmful to the environment
- A lightweight material that helps to decrease CO2 emissions by reducing transportation costs
- Despite its popularity, PVC is hard to dispose of; it can't be incinerated due to its toxic nature when heated
- If taken to a landfill, the PVC can start to decompose and the toxic components leach into the soil and surroundings
